

# The IRS Private Debt Collection Program **BY THE NUMBERS**

The Internal Revenue Service (IRS) **Private Debt Collection (PDC) Program** is a public-private partnership that leverages cutting-edge technology & flexible repayment plans to provide a segment of taxpayers - those who are aware they have underpaid their taxes - with a manageable way to voluntarily pay past-due taxes over time.

The PDC Program is generating billions in federal tax revenue that otherwise would not have been collected, all while receiving high satisfaction rates from participating taxpayers.

The tax revenue collected by the PDC Program far exceeds all program expenses - **providing the IRS with a 304% return on their investment (ROI)**. The PDC Program pays for itself, generates much needed revenue to strengthen the federal budget and helps with deficit reduction.

**The IRS Private Debt Collection (PDC) Program** is a successful public-private partnership that returns vital funding to the U.S. Treasury, ensures fairness in the tax system and offers collaborative solutions that help Americans achieve a zero tax balance.
